

DELIVERING VALUE THROUGH QUALITY PRODUCTS

## **Standard Service Warranty Statement**

Precision Airparts Support Services, Inc. (PASS) warrants its overhaul and repair services to be free of defects in workmanship and materials from the date of tag in accordance with the following parameters:

### **Overhaul**

All articles overhauled by PASS will be warrantied for a period of twelve (12) months from the date of the tag, unless stated otherwise. Warranty covers workmanship and all materials replaced by PASS at time of most recent overhaul.

### **Repair**

All articles repaired by PASS will be warrantied for a period of six (6) months from the date of the tag, unless stated otherwise. Warranty covers workmanship and all materials previously replaced by PASS at time of most recent repair.

NOTE: Warranties for articles repaired by PASS do not give full coverage for all failures during the six (6) month or otherwise stated period, but are limited to those specific parts and/or sub-assemblies that were repaired/replaced as part of the most recent maintenance action.

For this Standard Service Warranty to be honored, all warranty repairs must be performed by Precision Airparts Support Services, Inc. No warranty will be honored if tamper seals and/or safety wire is broken or missing. Damage induced because of mishandling, improper packaging, or improper storage and preservation differing from that specified by the Original Equipment Manufacturer (OEM) will also void this warranty.

If you require any further information regarding our Standard Service Warranty, please contact Customer Service at (714) 534-1541.
